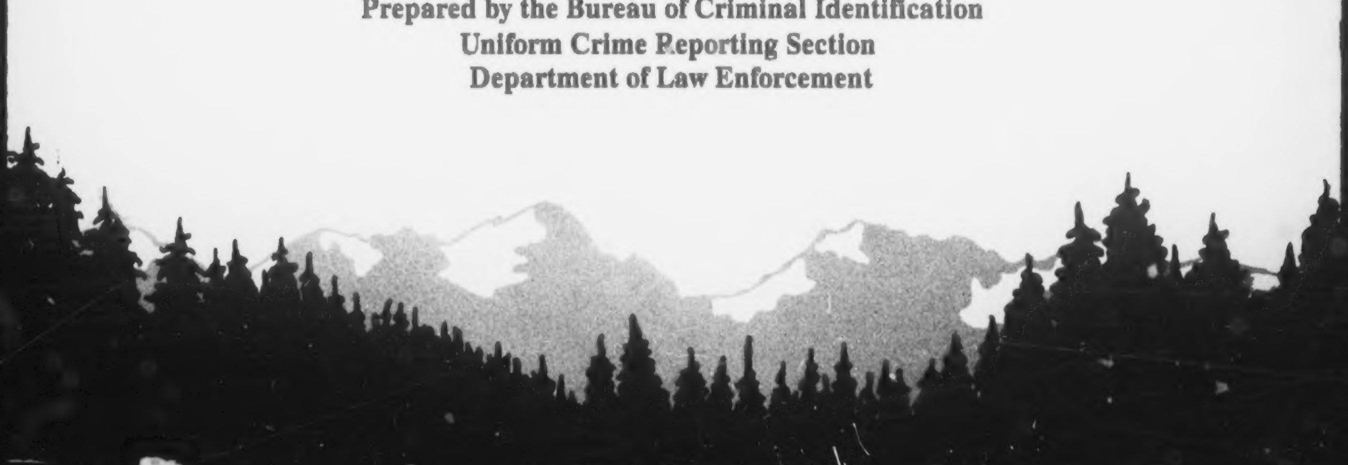
CRIME IN IDAHO

1990

Prepared by the Bureau of Criminal Identification
Uniform Crime Reporting Section
Department of Law Enforcement



STATE OF IDAHO
DEPARTMENT OF LAW ENFORCEMENT
OFFICE OF THE DIRECTOR

RICHARD L. CADE
Director

CECIL D. ANDRUS
Governor

TO ALL CRIMINAL JUSTICE ADMINISTRATORS:

Enclosed for your review is the Centennial (1990) edition of Crime in Idaho, the annual compilation of Uniform Crime Report (UCR) data submitted to the Department of Law Enforcement's Bureau of Criminal Identification by Idaho law enforcement agencies. This edition is also dedicated to those officers who have lost their lives in the line of duty.

The diligent reporting efforts of law enforcement agencies statewide on the volume, extent, and nature of crime in their respective jurisdictions ensure the accuracy and usefulness of this document. As you know, this information is also utilized by the Federal Bureau of Investigation in the publication, Crime in the United States, a compilation of national crime statistics.

Crime in Idaho continues to serve two purposes. First, law enforcement administrators will find the statistical data useful in developing strategies to address criminal justice problems and challenges in their cities and counties. Second, it provides the general public a means of developing an awareness of crime and its resultant impact on their respective communities. Essentially, the report serves as a measure of criminal activity throughout the State of Idaho.

I firmly believe that law enforcement and the general public must develop a strong partnership in order to meet the criminal justice challenges of the future. This Department, through a variety of programs and initiatives such as this report, will continue to take an active role in that partnership.

Sincerely,

Richard L. Cade

UNIFORM CRIME REPORTING OVERVIEW

This year marks the eighteenth anniversary of the Uniform Crime Reporting Program for Idaho. These data represent the progress of law enforcement in our state and will serve as a baseline for future work.

UCR COLLECTION AUTHORITY:

Idaho Code 19-4813 states in part that **The Criminal Identification Bureau** shall (1) collect information concerning the number and nature of all offenses designated by the director of the bureau, including, but not limited to, Part I and Part II offenses as defined by the Federal Bureau of Investigation under its system of uniform crime reports for the United States which are known to have been committed in this state, the legal action taken in connection with such offenses from the inception of the complaint to the final discharge of the defendant and such other information as may be useful in the study of crime and the administration of justice. The director of the bureau may determine any other information to be obtained regarding crime statistics. However, the information shall include such data as may be requested by the FBI under its system of uniform crime reports for the United States.

(2) shall furnish all reporting officials with forms and instructions which specify in detail the nature of the information required, the time it is to be forwarded, the method of classifying, and such other matters as shall facilitate collection and compilation.

(3) shall offer assistance and instructions to all local law enforcement agencies in establishing efficient local bureaus of identification and records systems.

(4) shall make available all statistical information obtained to the governor and the legislature and prepare and publish reports and releases at least once a year, no later than July 1, containing the statistical information gathered under this section and presenting an accurate picture of crime in this state and of the operation of the agencies of criminal justice.

Idaho Code 67-2905 requires the reporting of malicious harassment crimes to the director of law enforcement. This code states in part that all city, county, and state law enforcement units shall be required to report all incidents of, complaints on, and arrests for malicious harassment crimes within their respective jurisdictions.

Malicious crimes are defined by Idaho Code 18-7902 which reads as follows:
It shall be unlawful for any person, maliciously and with the specific intent to intimidate or harass another person because of that person's race, color, religion, ancestry, or national origin, to:

(a) Cause physical injury to another person; or

(b) Damage, destroy, or deface any real or personal property of another person; or

(c) Threaten, by word or act, to do the acts prohibited if there is reasonable cause to believe that any of the acts described in subsections (a) and (b) of this section will occur.

For purposes of this section "Deface" shall include, but not be limited to, cross-burnings or the placing of any word or symbol commonly associated with racial, religious or ethnic terrorism on the property of another person.

Standard reporting procedures have been implemented for collecting and reporting malicious crimes, and collection officially begins January 1, 1991.

UCR SYSTEM OBJECTIVES:

The Idaho Uniform Crime Reporting (UCR) unit is designed to collect accurate crime data, as defined by State Statute and the Federal Bureau of Investigation UCR definitions, from all law enforcement agencies in the State. The fundamental objectives are:

(1) To inform all government officials and the public as to the nature of the crime problems in Idaho, its magnitude and trends.

(2) To provide law enforcement administrators with statistics for operational use, such as determination of manpower and training needs, proper focus for enforcement efforts, and to assist in deterrence programs.

Full cooperation of all law enforcement agencies in the state enhances and improves the capabilities and effectiveness of this program. Without the agency cooperation this statistical information would not be available. Agencies not participating in this program for 1990 are Lemhi, Lincoln, and Oneida County Sheriff's Offices.

VERIFICATION PROCEDURES:

An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. With the receipt of reports covering approximately 92 jurisdictions, the problems of attaining uniformity are readily apparent.

Each incoming report is not only examined for mathematical accuracy but also, perhaps of even more importance, for reasonableness as a possible indication of errors.

Numerous checks and cross-checks are used to insure the accuracy of the reports. Adjustments or unusual variations are brought to the attention of the submitting agency and, if necessary, corrections made.

Population figures in this book are furnished by the Idaho State Department of Commerce.

CONSIDERATIONS FOR INTERPRETATION:

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Population size, density, and degree of urbanization.
- Population variations in composition and stability.
- Economic conditions and employment availability.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Effective strength of the police force.
- Attitudes and policies of the courts, prosecutors, and corrections.
- Citizen attitudes toward crime and police, as well as crime reporting practices of the citizen.

REPORTING UNIFORMITY:

The Uniform Crime Reporting (UCR) program collects and reports criminal offenses data for the nation. Essential to the maintaining of uniform and consistent data is the utilization of standard definitions of the offenses used in the program.

The UCR program offenses are divided into two groups, Part I and Part II crimes. Part I offenses, except manslaughter by negligence, are used to indicate the "Crime Index".

The data collected on Part I crimes includes calls for service, complaints, and/or investigations. Arrest data is collected on both Part I and Part II offenses, however, only actual arrest data is collected on Part II crimes, not calls for service, complaints, and/or investigations.

The Crime Index is used to indicate fluctuations in criminal activities, which in turn will assist law enforcement managers in identifying law enforcement problems.

Part I Offenses are:

1. Criminal homicide:
   a. Murder and nonnegligent homicide
   b. Manslaughter by negligence

NOTE !! Not included in this category are deaths of persons due to their own negligence; and traffic fatalities. However, arrests in connection with traffic fatalities are counted.

2. Forcible rape
    a. Rape by force
    b. Attempts to commit forcible rape

3. Robbery
    a. Firearm
    b. Knife or cutting
    c. Other dangerous weapons
    d. Strong arm, hands, fists, feet, etc.

4. Aggravated assault
    a. Firearm
    b. Knife or cutting instrument
    c. Other dangerous weapon
    d. Hands, fists, feet, etc., aggravated injury

5. Burglary
    a. Forcible entry
    b. Unlawful entry-no force
    c. Attempted forcible entry

6. Larceny-theft (except motor vehicle)

7. Motor vehicle theft
    a. Autos
    b. Trucks and buses
    c. Other vehicles

8. Arson
    a-g. Structural
    h-i. Mobile
    j. Other

The PART II offenses are as follows:

9. Other assaults (assaults or attempts which did not result in serious injury)
10. Forgery and counterfeiting
11. Fraud
12. Embezzlement
13. Stolen property: buying, receiving, possessing
14. Vandalism
15. Weapons: carrying, possessing, etc.
16. Prostitution and commercialized vice
17. Sex offenses (except forcible rape, prostitution, and commercial vice)

18. Drug abuse violations
19. Gambling
20. Offenses against the family and children, (included are all charges of nonsupport and neglect or abuse of family and children)
21. Driving under the influence
22. Liquor laws
23. Drunkenness
24. Disorderly conduct
25. Vagrancy
26. All other offenses **except traffic violations**
27. Suspicion

Juvenile arrests only:

28. Curfew and loitering
29. Runaways

NATIONAL INCIDENT BASED REPORTING SYSTEM:

Idaho is implementing the new National Incident Based Reporting System (NIBRS). The inception of this new method of collecting, compiling, and reporting crime statistics in our State will enhance the UCR program by providing additional valuable information to assist police administrators and inform the public.

Since the establishment of the Uniform Crime Reporting (UCR) Program in 1930, the volume, diversity, and complexity of crime steadily increased while the UCR Program remained virtually unchanged. Recognizing the need to address crimes growing challenge, the law enforcement community in the late 1970s called for a thorough study of the UCR Program with the objective of revising the Program to meet law enforcement's needs into the 21st Century. National Incident Based Reporting System (NIBRS) is the result of that study, and its purpose is to satisfy those needs.

In order to ensure that it fulfills its purpose, NIBRS has adopted the following goals:

1. To enhance the quantity, quality, and timeliness of crime statistical data collected by the law enforcement community.

2. To improve the methodology used for compiling, analyzing, auditing, and publishing the collected crime data.

In NIBRS, law enforcement agencies collect detailed data regarding individual crime incidents and arrests and submit them in separate "reports" using prescribed data elements and data values to describe each incident and arrest, therefore, NIBRS involves "Incident Based Reporting".

Group "A" Offenses --These are the offenses which are reported in Group "A" incident reports. There are 22 Group "A" crime categories required for NIBRS and 23 "Group A" required for Idaho. These are made up of 47 reportable offenses.
NOTE: The crime category unique to Idaho is the Hate/Bias offenses, required by Idaho Statute 16-2905

1. Arson
2. Assault Offenses
    - Aggravated Assault
    - Simple Assault
    - Intimidation
3. Bribery
4. Burglary/Breaking and Entering
5. Counterfeiting/Forgery
6. Destruction/Damage/Vandalism of Property
7. Drug/Narcotic Offenses
    - Drug/Narcotic Violations
    - Drug Equipment Violations
8. Embezzlement
9. Extortion/ Blackmail
10. Fraud Offenses
    - False Pretenses/ Swindle/Confidence Game

    - Forcible Fondling
21. Sex Offenses, Nonforcible
    - Incest
    - Statutory Rape
22. Stolen Property Offenses (receiving, etc.)
23. Weapon Law Violations

Group "B" Offenses -- These are the offenses which are reported in Group "B" Arrest Reports. They include all offenses which are not Group "A" offenses, except for most "Traffic Offenses". Group "B" offenses are to be reported using the following 11 crime categories:

1. Bad Checks
2. Curfew/Loitering/Vagrancy Violations
3. Disorderly Conduct
4. Driving Under the Influence
5. Drunkenness
6. Family Offenses, Nonviolent
7. Liquor Law Violations
8. Peeping Tom
9. Runaway
10. Trespass of Real Property
11. All Other Offenses (Except Traffic)

Each "Group A" Incident Report can contain up to 10 types of offenses, 999 victims, 99 offenders, and 99 arrestees. Ten different types of property can be shown for each of six types of property loss. Detailed information on all victims, offenders, arrestees, as well as relationships of victims to offenders, whether or not arrestees were armed, greatly enhanced drug information, offender using alcohol, drugs, or computers, and numerous other breakdowns which will make available many statistics not now being collected. The implementation of NIBRS should be completed in 1991, however, until all agencies are participating, statistics will not be published in "Crime in Idaho" under the new method.

MURDER and NONNEGLIGENT MANSLAUGHTER

DEFINITION

Murder is the willful (nonnegligent) killing of one human being by another.

The classification of this offense, as in all other "Crime Index Offenses", is based solely on police investigation, as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body.

Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the count for this offense classification.

Attempts to murder and assault to murder are counted as aggravated assaults and not as a murder.

A total of 27 murders were reported by law enforcement agencies in 1990, as compared with 26 for 1989. Murder accounted for point one (.1) percent of all violent crimes and point zero one (.01) percent of all Index Offenses.

Of the 27 victims, 26 were White, 1 Black, and 4 were of Hispanic ethnicity. Thirty three (33) percent of the victims were female.

The most frequent month for murder was October. The most frequent victim was a white male between the ages of 21 and 30. The most frequent arrestee was a white male between the ages of 25 and 40.

Law enforcement was able to clear eighty one (81) percent of the murders committed in 1990.

Handguns were used in twenty nine point six (29.6) percent of the murders, rifle/shotguns in twenty five point nine (25.9) percent, knives in twenty two point two (22.2) percent, "other dangerous weapons" in fourteen point eight (14.8) percent and seven point four (7.4) percent were killed by other means.

Sixty seven (67) percent of the murders were committed by a relative or acquaintance of the victim. Twenty six (26) percent of these killings were immediate family and 5 involved the killing of a spouse.

Ninety two (92) percent of all persons arrested for murder were white, one (1) percent black, and one (1) percent Asian. Six (6) percent of all arrestees were of Hispanic origin. Males accounted for eighty eight (88) percent of all persons arrested.

RAPE

DEFINITION

Forcible Rape is the carnal knowledge of a female through the use of force or threat of force.

Assaults to commit forcible rape are also included in this catagory, however, statutory rape (without force) is not counted.

A total of 272 rapes, attempts included, were reported by law enforcement agencies in Idaho in 1990. Of this total, 211 were rapes by force and 61 were attempts.

This compares with 232 forcible rapes in 1989, of which 187 were actual and 45 were attempts.

Forcible rape accounted for nine point eight (9.8) percent of all violent crimes and point seven (.7) percent of the total Index Offenses.

Law enforcement agencies were able to clear sixty three point two (63.2) percent of these offenses.

Three point six (3.6) percent of the reported arrests for forcible rape during 1990 involved persons under the age of 18.

Ninety eight (98) percent of all persons arrested for forcible rape were white and two (2) percent black. Fourteen (14) percent were of Hispanic ethnicity.

The value of property loss reported for the offense of rape was $428.00.

The most frequent months in which rape occurred were June and November, with 28 rapes reported. The least frequent months were March, October, and December when 18 rapes were reported. The most frequent arrestee was a white male, between 25 and 35 years of age.

LAW ENFORCEMENT OFFICERS ASSAULTED

JANUARY - DECEMBER 1990

LAW ENFORCEMENT OFFICERS ASSAULTED

The killing or assault of law enforcement officers is an increasingly serious problem faced by law enforcement administrators nationwide, and it should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operation and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order.

Today the ambitious young person who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society that they are sworn to protect.

In 1990 there were 342 assaults on law enforcement officers in Idaho as compared to 425 in 1989, a nineteen point five (19.5) percent decrease. While every assault did not result in personal injury to the officer involved, many of them did result in physical harm to the officer with loss of work time.

During 1990, twenty one point four (21.4) percent of all assaults resulted in injury to the officer as compared to eighteen (18) percent in 1989. These 342 officers assaulted amounted to fifteen (15) percent of all county and city law enforcement officers. Three (3) percent of all Idaho State Police were assaulted in 1990.

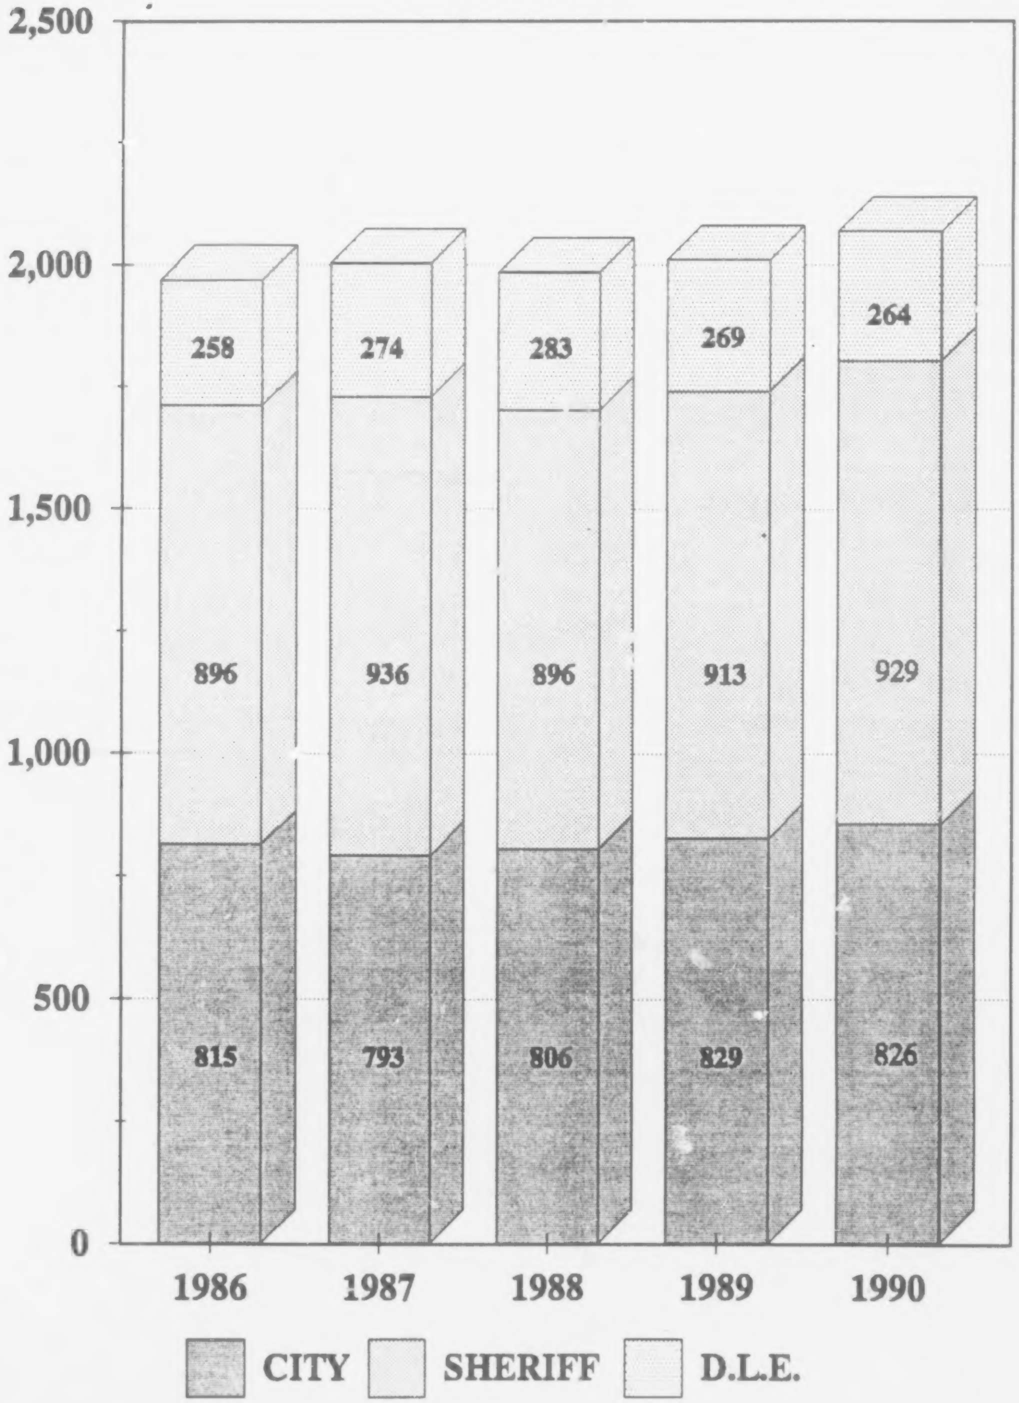
LAW ENFORCEMENT EMPLOYEE DATA

GREAT SEAL OF THE STATE OF IDAHO
ESTO PERPETUA

JANUARY - DECEMBER 1990

LAW ENFORCEMENT OFFICERS EMPLOYED

5 YEAR TREND



LAW ENFORCEMENT EMPLOYEE DATA

The Uniform Crime Reporting Program collects annual data on law enforcement employees. The information reported consists of all full-time, sworn personnel with full arrest powers. This includes the sheriff and deputies, constables, marshals, the chief and members of the police force, and other officers whose duties are to enforce and preserve the public peace. Not included are persons performing guard or protection duties, such as school crossing guards, special or reserve officers, merchant police and jailers at state correctional facilities and state prisons, who are not paid from law enforcement funds. City and county jailers are counted only if they are full-time employees and their salaries are paid out of law enforcement funds. If the county sheriff has a separate budget for the operation of the jail, and the jailers do not engage in other law enforcement functions, although they may be sworn personnel, they are not included in this count.

From 1989 to 1990 there was a one point eight (1.8) percent increase in the number of full-time law enforcement officers within the various sheriff offices and a zero point four (0.4) percent decrease in the police departments located throughout the State. In 1990 the average number of full-time law enforcement employees (police and sheriff departments), including civilian personnel, amounted to two point two (2.2) employees for each 1,000 inhabitants of the State. The rate, based on sworn personnel only, amounted to one point seven (1.7) per 1,000 population in 1990, the same as 1989 .

COUNTY SHERIFFS' DEPARTMENTS

As of October 31, 1990, there were 1250 persons employed full-time in Idaho's sheriffs' departments, of which 929 were sworn personnel and 321 were civilian employees.
